

# Jacob Lord

Independent Candidate  
for County Council

The world is rapidly changing around us. Our economic future is uncertain, extreme weather affects more homes, and with the increased demand on health services, more people are anxious about what the future holds.

This requires creative thinking in order to best utilise the resources we have available. We need to be solution-focused as we start to rebuild our economy, whilst preparing to leave the aftermath of the pandemic.

Growing up in Waddington, starting a technology company, and with five years of community volunteering, I hear what you are saying. That is why I want to represent you. I empathise with those who have been affected, and the challenges ahead. I would like to offer my knowledge, skills, and experiences, as I bring a fresh perspective ready to serve my community.

**Voting is on the 6th May. Your vote is important, and I would like your support to help build a better Lincolnshire.**
